

March 16, 2020

Many educational websites have opened their programs to our students at no cost for the next 30 days. If your child has internet access, please allow them to spend no more than 30 minutes a day on any ONE of these programs. Most of these will be both fun and educational for your child. Many of them can be accessed on a phone or a tablet, but you will probably need to assist your child in downloading the necessary app. Some third grade students also have access to Google Classroom. If your child has used this, he/she knows how to access the assignments.
